PART 1

What Is Kauai?

"Kauai" (KAUI) stands for Kill (Bill) Admin User Interface.

Kauai is a user interface for Kill Bill. You can use Kauai to perform all sorts of back office tasks related to customer accounts. You can also use Kauai to perform more advanced tasks.

What You Can Do in Kauai

In Kauai, users can perform basic tasks, such as:

- Create a customer account
- Generate a customer invoice
- Cancel a subscription

However, Kauai can also help advanced users perform tasks, for example:

- Adding a plugin to Kill Bill
- Managing Kill Bill users
- Creating tags or custom fields

These are just a handful of the tasks you can accomplish with Kauai. For a full list, see the *Table of Contents* at the beginning of this guide.

How to Use This Guide

[PART 1](#) explains how Kauai is organized

[PART 2](#) explains how to perform the basic tasks for administering customer accounts, such as creating accounts, invoices, and so forth. It's appropriate for back office staff, such as those working in customer service, product management, and finance.

[\[part_3\]](#) explains how to create and manage users as well as users roles and permissions. It's appropriate for Kill Bill administrators and software developers.

[\[part_4\]](#) covers the advanced features of custom fields, tags and more.

The [\[faqs\]](#) are great if you have a basic question like, "How do I create an invoice?"

About Screenshots

The screenshots displayed in this guide may differ from what you see on your Kauai screen. That's because your user permissions control what features you can access (i.e., what you see on the screen).

If you have any questions about why your Kauai screen doesn't match what you see in this guide, ask your Kauai administrator.

Other Learning Resources

Glossary

For terms specific to Kill Bill, we encourage you to review the following terms in the *Kill Bill Glossary*:

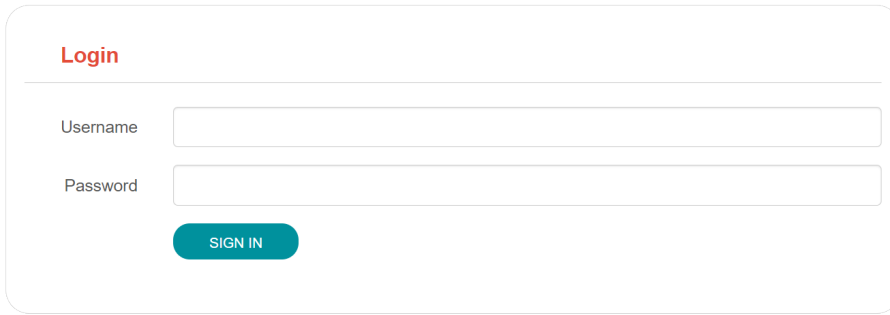

Account | External Key | Parent | Payment Method | Subscription | Tag | Tenant | User

Videos

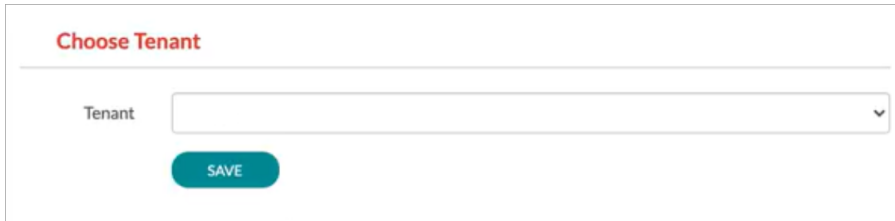

We regularly add new overviews and tutorials to [our YouTube videos](#), so check in from time to time.

Sign In and Sign Out

To sign in to Kauai, type in your username and password, then select the **Sign In** button.

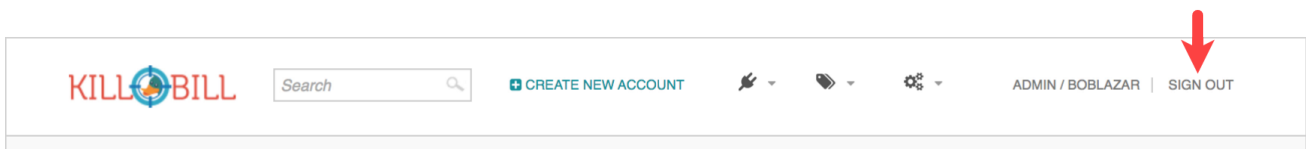

A login form with a red "Login" header. Below the header are two input fields: "Username" and "Password". At the bottom is a teal button labeled "SIGN IN".

If your organization uses more than one Kill Bill tenant, select the tenant from the dropdown and select the **Save** button:

A form titled "Choose Tenant" in red. It features a "Tenant" dropdown menu and a teal "SAVE" button.

Note: Authentication is handled by Kill Bill. The method your organization uses to manage users is highly configurable. For information on managing users and permissions, see [Users, Roles, and Permissions](#).

To log out of Kaui, select **SIGN OUT** in the upper right corner of the Kill Bill homepage:

The header of the Kill Bill homepage. It includes the "KILL BILL" logo, a search bar, a "CREATE NEW ACCOUNT" button, several icons, the user name "ADMIN / BOBLAZAR", and a "SIGN OUT" link. A red arrow points down to the "SIGN OUT" link.

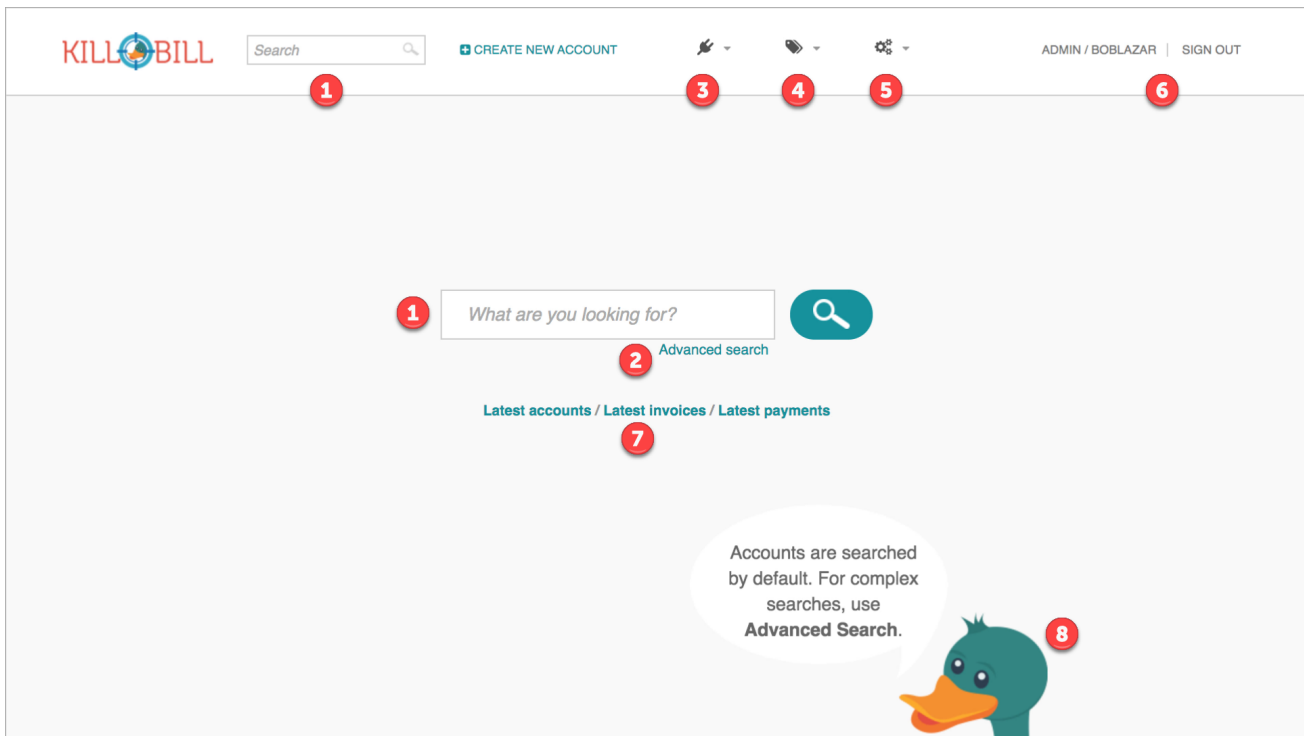

Navigate

This section gets you familiar with the standard features of Kaui's user interface, such as:

- [Homepage Layout](#)
- [Icons](#)
- [Grids/Tables](#)
- [Basic Search](#)
- [Advanced Search](#)

Homepage Layout

The homepage is the screen that Kaui displays after you first log in.

1. [Basic Search](#) (find customer accounts)
2. [Advanced Search](#) (find invoices, payments, and more)
3. Plugin specific screens (e.g., analytics (reporting), deposits (record wire transfers), KPM (Kill Bill Package Manager)
4. [Tags, Tag Definitions, and Custom Fields](#)
5. Users, Tenants, and Admin
6. Username / Tenant name and [Sign Out](#)
7. Latest invoices, accounts, and payments (latest records created for this tenant)
8. This is Killian, the Kill Bill mascot!

*Advanced features you may or may not have access to, depending on your user permissions.

Return to Homepage

From any screen in Kill Bill, you can return to the homepage by clicking the logo in the upper left corner:

Icons

Icon	Description
	Appears where you can add an item, such as a payment method, credit, charge, etc.

Icon	Description
	Appears on the Account page. Clicking it manually triggers a committed or dry-run invoice.
	Expand a section or dropdown menu.
	Collapse a section.
	<i>Admin-level feature:</i> On the home page, click to access Tags, Tag Definitions, and Custom Fields. <i>All users:</i> In other locations in Kauai, click to select a tag to apply to the current object (for example, an account).
	Appears at the top of the screen and gives you access to plugin specific screens.
	Appears on the Subscription screen and lets you add an add-on to the account's subscription.
	Appears on the Invoice screen and lets you make a payment against the invoice.
	<i>Admin level feature:</i> Appears at the top of the screen and gives you access to Users, Tenants, and Admin.

Grids/Tables

Grids (also referred to as *tables*) appear throughout Kauai to keep lists organized:

Showing All Accounts			
	ID	EXTERNAL KEY	BALANCE
	68b2ba7f-0f6f-4786-9788-8efe3af71676	68b2ba7f-0f6f-4786-9788-8efe3af71676	\$0
	ec4d7a66-5eed-4a1d-a290-208c3aafda24	0585529786	€0
	a95d6483-3df1-4d3d-bf6a-1c9a82a229d5	7411156749	\$0
	7e050655-f160-428e-8e64-68718a1da147	8473547085	£0
	eb8b02dc-42f0-44c3-84ea-5b7b5f91343b	6235981780	€0
	ab9f521-25fd-4007-bdca-c4fde5403cdh	2418455544	€0

For very large grids, use the pagination controls to view different "pages:"

First	Previous	1	2	3	4	...	5	Next	Last
-------	----------	---	---	---	---	-----	---	------	------

To sort columns on a grid, click the up/down arrow in that column's header:

Invoices			
NUMBER	DATE	AMOUNT	BALANCE
18577	2021-06-23	\$4.54	\$4.54
18576	2021-06-23	\$2.49	\$0
18575	2021-06-23	\$7.33	\$0
18574	2021-06-23	\$59.98	\$59.98

Kaui shows you which column is currently sorted by the purple arrow:

Invoices			
NUMBER	DATE	AMOUNT	BALANCE
18574	2021-06-23	\$59.98	\$59.98
18573	2021-06-23	\$59.98	\$59.98
18538	2021-06-22	\$29.99	\$29.99
17587	2021-05-29	\$29.99	\$0

The direction of the arrow (up or down) indicates if the column is sorted in ascending or descending order.

If relevant, you can click on a link in the grid to view that item's detail. For example, on the Invoices grid, click the link to open that specific invoice:

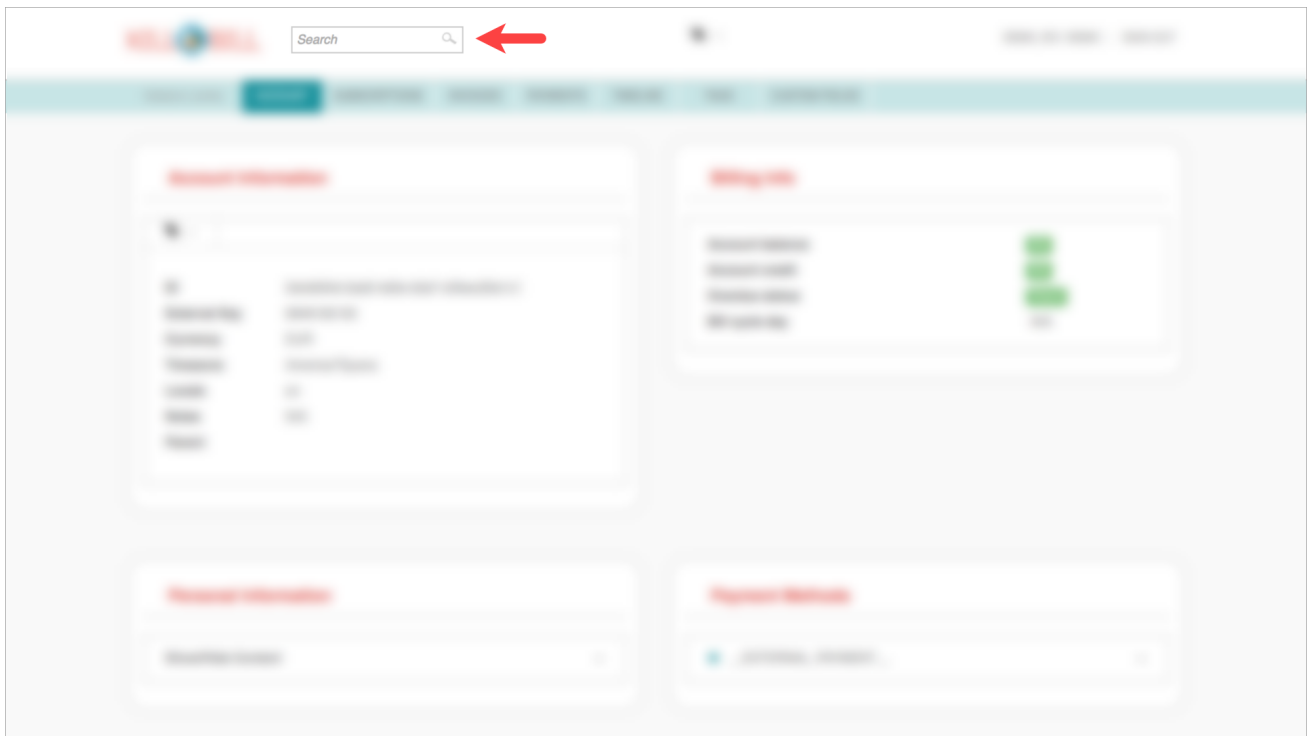

Invoices			
NUMBER	DATE	AMOUNT	BALANCE
18574	2021-06-23	\$59.98	\$59.98
18573	2021-06-23	\$59.98	\$59.98
18538	2021-06-22	\$29.99	\$29.99
17587	2021-05-29	\$29.99	\$0

Basic Search

Tip: To view all accounts, place your cursor in the search field and press the Enter key.

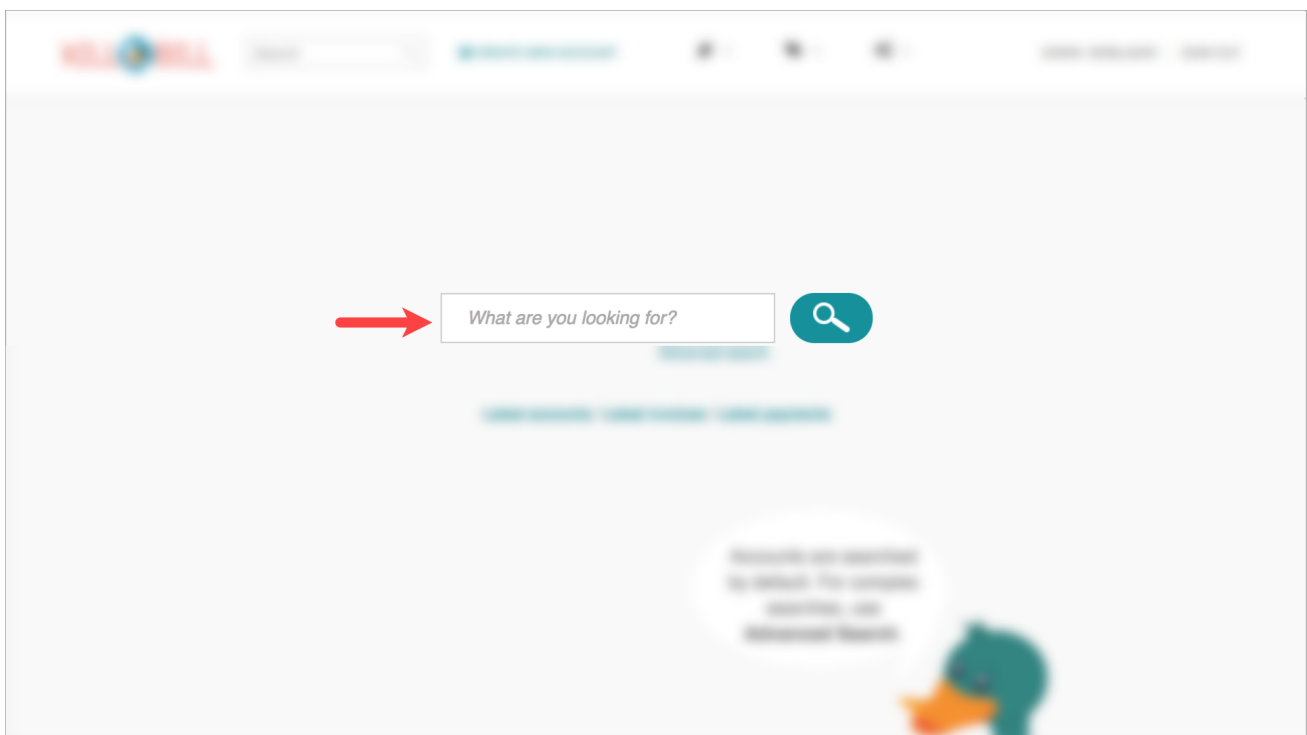

To search for customer accounts, use the basic search. Basic search is available at the top of the screen no matter where you are in Kaui:

You can also search on the following information:

- ID
- External key
- Name
- Email address

Basic search is also available in the center of the **homepage**:

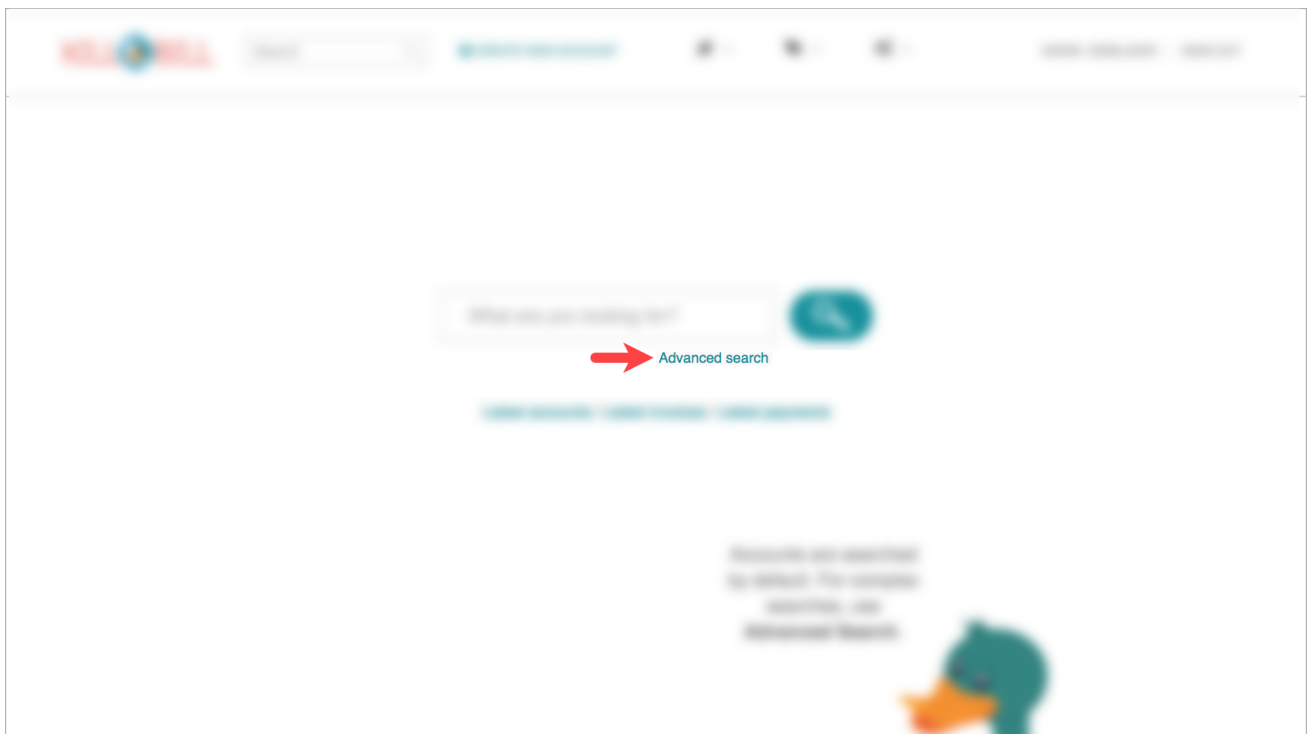

Advanced Search

An advanced search can help you find customer account information as well as other types of objects in the system:

- Bundle
- Invoice
- Credit
- Custom field
- Invoice payment
- Invoice
- Payment
- Subscription
- Transaction
- Tag
- Tag definition

To perform an advanced search:

1. On the homepage, click **Advanced search**:

Kaui displays the Advanced Search popup:

Advanced Search

Search for

Object type

ACCOUNT

Search by

☐ Fast search (find first exact match)

SEARCH

Search query

FIND:ACCOUNT FOR:

2. In the **Object type** field, select the object type you want to search for:

Advanced Search

Search for

Object type

ACCOUNT

ACCOUNT

BUNDLE

INVOICE

CREDIT

CUSTOM_FIELD

INVOICE_PAYMENT

INVOICE

PAYMENT

SUBSCRIPTION

TRANSACTION

TAG

TAG_DEFINITION

Search by

Search query

FIND:ACCOUNT FOR:

3. In the **Search for** field, enter the identifier (ID) of the object you're searching for. (*Example: If you're searching for a specific invoice, type in the invoice number.*)

Note: In addition to searching with an ID, some object types can be searched for using an external key, such as the customer account.

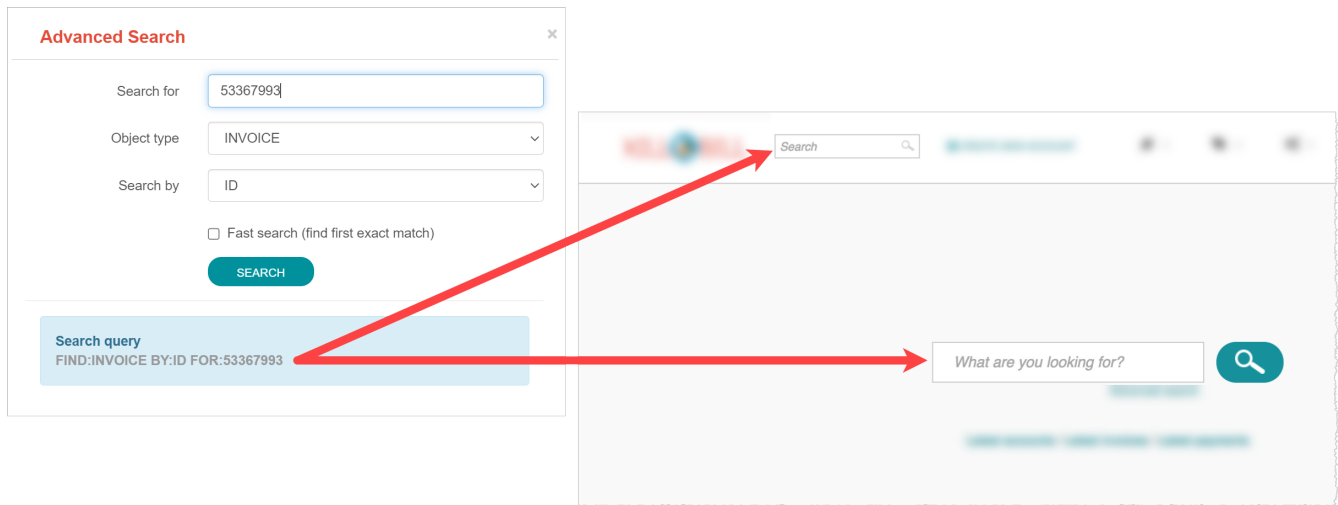

4. If you want Kaui to search and display the first record in the search results, click the **Fast search** checkbox.

5. Click the **Search** button. Kaui displays the search results.

Tip: At the bottom of the Advanced Search popup, Kauai displays the search syntax. You can copy and paste this advanced search syntax into a basic search field. This is helpful if you frequently perform the same kinds of advanced searches.

Example:

PART 2

Accounts

This section helps you become familiar with customer accounts and the layout of the Account page.

The Account page provides information about a specific customer, such as email address, physical address, and so forth. It is also the central location for the customer's billing information, subscriptions, invoices, and payment methods.

To find a customer in the system, use [Basic Search](#) or [Advanced Search](#). To open the customer account, click on the customer ID in the search results.

The next section explains how the Account page is laid out. To skip this and see the task-based steps, go to [Create an Account](#).

Account Page Layout

The Account page has the following sections:

1. Sub-menu
2. Account information
3. Billing info
4. Personal info
5. Payment methods

The screenshot shows the 'ACCOUNT' sub-menu. At the top, a navigation bar includes 'Katelynn Lemke', 'ACCOUNT' (highlighted), 'SUBSCRIPTIONS', 'INVOICES', 'PAYMENTS', 'TIMELINE', 'TAGS', and 'CUSTOM FIELDS'. A red circle with the number '1' is placed over the 'CUSTOM FIELDS' tab. Below this, the main content area is divided into four panels:

- Account Information (2):** A panel containing a table of account details:

ID	0dcb634d-2ad5-4d0e-b3a7-c0feec20e1c1
External Key	9946162130
Currency	EUR
Timezone	America/Tijuana
Locale	en
Notes	N/A
Parent	
- Billing Info (3):** A panel with action buttons 'PAY ALL INVOICES', 'ADD CREDIT', and 'CREATE CHARGE'. It also displays account status:

Account balance	\$10
Account credit	\$0
Overdue status	Good
Bill cycle day	N/A
Next Invoice Date	N/A

 At the bottom, there is a 'Trigger invoice generation' section with a text input field, a 'Dry-run' checkbox, and an edit icon.
- Personal Information (4):** A panel with a 'Show/Hide Content' dropdown menu.
- Payment Methods (5):** A panel with a dropdown menu showing '★ __EXTERNAL_PAYMENT__' and a refresh icon.

1. Account Sub-Menu

The Account sub-menu organizes and provides access to different areas of the customer's account:

- Subscriptions
- Invoices
- Payments
- Timeline
- Tags
- Custom Fields

A horizontal navigation bar with the following items: 'Katelynn Lemke', 'ACCOUNT' (highlighted in dark blue), 'SUBSCRIPTIONS', 'INVOICES', 'PAYMENTS', 'TIMELINE', 'TAGS', and 'CUSTOM FIELDS'.

To see these areas, click on the relevant item on the sub-menu. To return to the customer's Account page, click **Account** on the sub-menu.

2. Account Information

This section of the screen displays a summary of the customer's account information, such as their ID, currency, and time zone. To edit this information, click **Edit** next to Account Information.

Here you can perform the following tasks for the customer account:

- [Edit an Account](#)
- [Link to Parent Account](#)

- [Add a Tag to an Account](#)

3. Personal Information

This section of the screen displays the customer's personal contact information (read only).

By default, Personal Information details are hidden for GDPR Compliance and customer privacy. To see the information, click **Show/Hide Content**.

To edit this information, see the [Edit an Account](#) section.

4. Billing Info

Here you can perform the following tasks for the customer:

- Pay all invoices
- Add a credit
- Create a charge

You can also see a summary of billing information:

Field	Description
Account balance	Amount of money due on the account, including any account credits.
Account credit	Amount of any money owed to the customer.
Overdue status	<p>The status of the customer's account that indicates if they are overdue or up-to-date on their invoice payments.</p> <p>Note: The account can have a negative account balance, but not be overdue. That's because overdue status depends on invoice due dates and how late payments are defined based on a company's business policy. For example, an invoice may not be overdue if a company allows a 15-day grace period (a.k.a. NET terms) to make a payment.</p>
Bill cycle day	The day of the month on which the system generates an invoice.
Next invoice date	The date on which the system generates the customer's next invoice.

The **Trigger invoice generation** feature lets you generate an invoice, either as a test or in a committed state.

5. Payment Methods

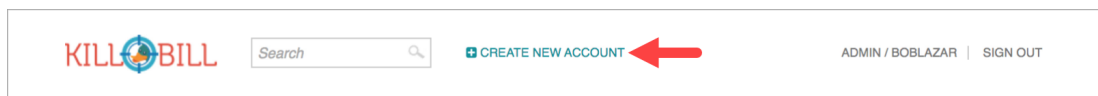

This section of the Account page lets you:

- [Add a payment method](#)
- [Set a payment method as default](#)
- [Delete a payment method](#)
- [Apply a transaction to a payment method \(authorize, charge, credit, etc.\)](#)

For more information on payment methods, see the [Payment Methods](#) section.

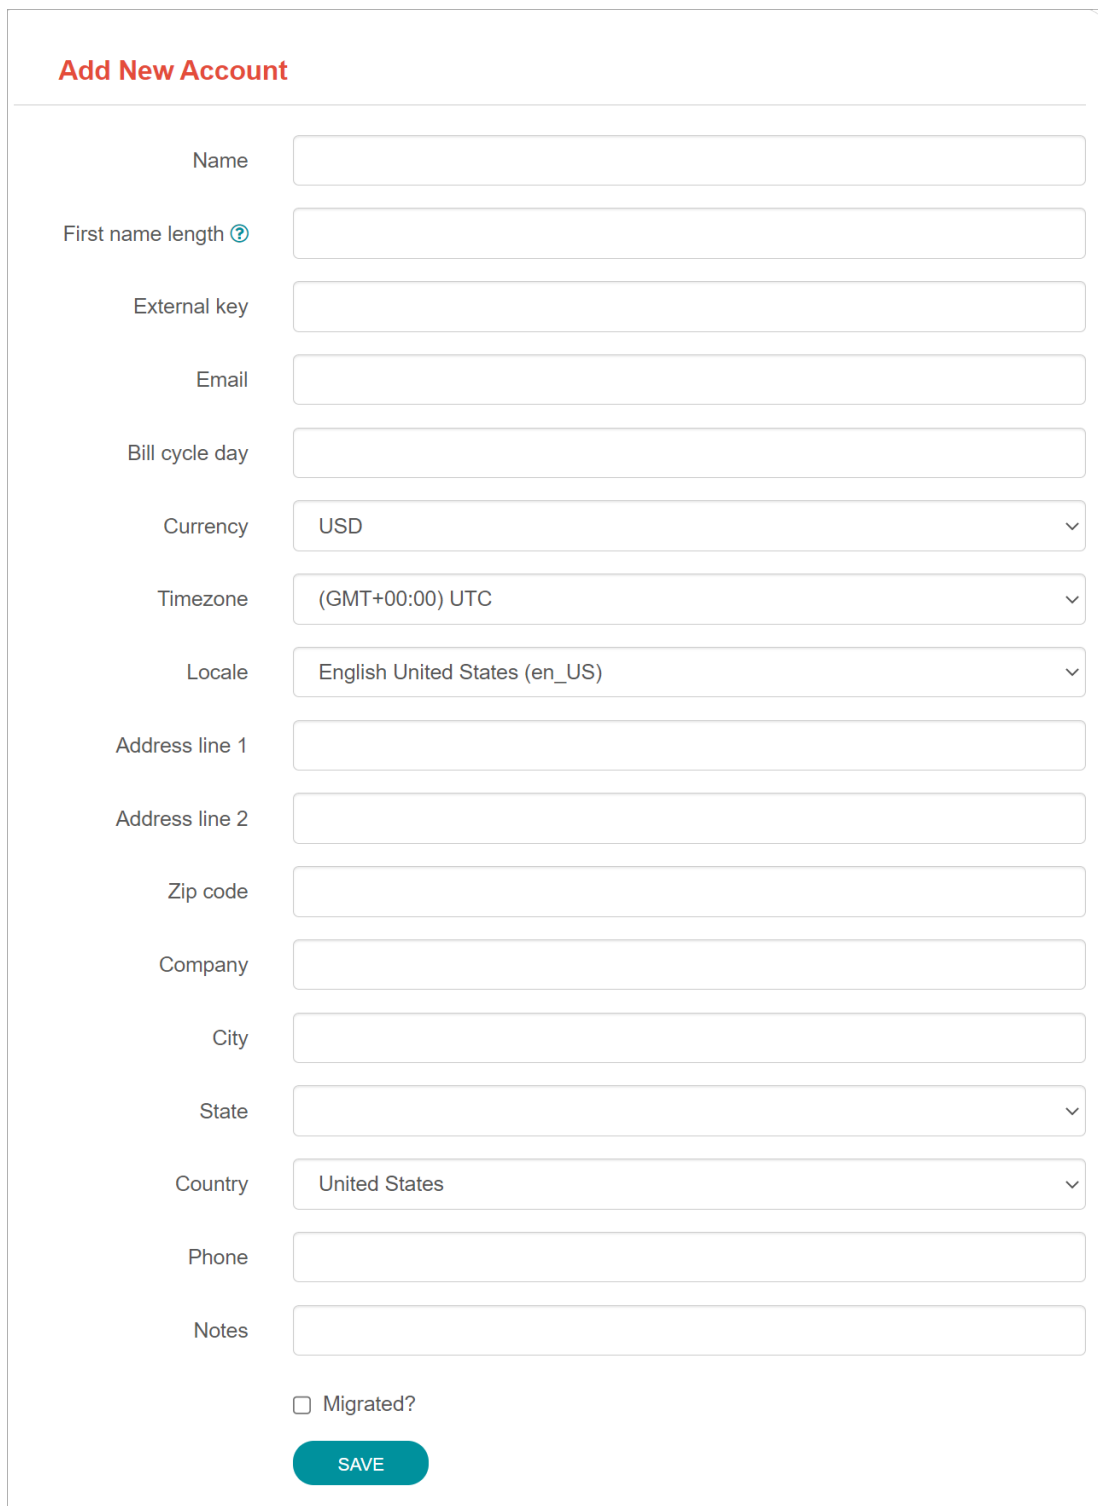

Create an Account

1. At the top right of the screen, click **Create New Account**:

The screenshot shows the top navigation bar of the application. On the left is the 'KILLBILL' logo. Next to it is a search bar with the placeholder text 'Search'. To the right of the search bar is a link that says 'CREATE NEW ACCOUNT' with a red arrow pointing to it. Further right, separated by a vertical line, are the links 'ADMIN / BOBLAZAR' and 'SIGN OUT'.

2. Kaui opens the Add New Account screen:

The screenshot shows the 'Add New Account' form. At the top left of the form area is the title 'Add New Account' in red. Below the title is a list of form fields, each with a label and an input field:

- Name
- First name length [?](#)
- External key
- Email
- Bill cycle day
- Currency: USD (dropdown menu)
- Timezone: (GMT+00:00) UTC (dropdown menu)
- Locale: English United States (en_US) (dropdown menu)
- Address line 1
- Address line 2
- Zip code
- Company
- City
- State (dropdown menu)
- Country: United States (dropdown menu)
- Phone
- Notes

Below the 'Notes' field is a checkbox labeled 'Migrated?'. At the bottom center of the form is a teal 'SAVE' button.

3. Fill in the fields. For field information, see the table in the next section.

4. Click the **Save** button.

Account Field Information

Field	Description
Name	The customer's first and last name.
First name length	<p>This field sets the length of the customer's first name. Kill Bill automatically calculates this number based on the location of the space between the first and last name. You can overwrite it with a different number, if necessary.</p> <p>Note: This field is used if your organization needs to extract customers' first or last names for communication (invoices, emails, etc.). The field lets an organization accommodate variations of names used across the globe.</p>
External key	<p>An optional alternate ID for the account. Once this is saved for the customer, you cannot change it.</p> <p>Tip: The external key feature is helpful if you integrate Kill Bill with another system, such as a CRM, and want to use that system's ID in Kill Bill (for identification, searching, and so forth). Once this is set and saved for the customer, you cannot change it.</p>
Email	The main email address to use for communicating with the customer.
Billing cycle day	For monthly or quarterly subscriptions, what day of the month the invoice is created. Once this is saved for the customer, you cannot change it.
Currency	The currency that the customer uses to make purchases. Once this is saved for the customer, you cannot change it.
Timezone	The time zone in which the customer resides. Once this is saved for the customer, you cannot change it.
Locale	Indicates the language that Kauai uses to send communication to the customer (invoices, emails, etc.) If your organization communicates with customers in a language that's different than the system's default language, it's important to select the appropriate locale for the customer. For more information, see the <i>Internationalization</i> manual .
Address line 1 and Address line 2	The street address where the customer resides.
Zip code	The zip code for the area in which the customer resides.
Company	If relevant, the company/organization the customer works for.
City	The city in which the customer resides.
State	The state in which the customer resides.

Field	Description
Country	The country in which the customer resides.
Phone	The customer's phone number.
Notes	Additional information about the account. These notes are not viewable by the customer.
Migrated?	This field is for informational purposes only. You can check this box if you have migrated this customer account into Kill Bill.
Contact email addresses	Additional addresses to which account-related emails will be sent. The email addresses listed here will receive the same emails as the main Email address. For more information, see Add Additional Contact Emails .

Edit an Account

You can make changes to most of the account fields after it has been created.

Note: You cannot change the following fields: Bill Cycle Day, Currency, External Key, and Time Zone.

1. Open the account on the Account page.
2. Next to Account Information, click **Edit**.

Kaui opens the Update Account screen:

Update Account

Name	<input type="text" value="Frieda Lancaster"/>
First name length 	<input type="text" value="6"/>
Email	<input type="text" value="frieda.lancaster@email.com"/>
Locale	<input type="text" value="English United States (en_US)"/>
Address line 1	<input type="text" value="123 Madison Terrace"/>
Address line 2	<input type="text" value="Apt 1-B"/>
Zip code	<input type="text" value="37040-3555"/>
Company	<input type="text" value="Big Results, LLC"/>
City	<input type="text" value="Clarkesville"/>
State	<input type="text" value="Tennessee"/>
Country	<input type="text" value="United States"/>
Phone	<input type="text" value="555-321-7654"/>
Notes	<input type="text" value="VIP"/>

SAVE

3. Make changes to the fields. For field information, see the [Account Field Information](#) table.
4. Click the **Save** button.

Add Additional Contact Emails

If a customer wants to receive email at more than one email address (which is the one defined in the Email field for the account), you can add more email addresses.

1. Open the account on the Account page.
2. In the Personal Information section, click the gray down arrow () to expand the section.

Personal Information

Show/Hide Content ▲

Name	Grayson Busch
Address1	101 Starburst Way
Address2	
City	Atlanta
State	GA
Country	US
Postal Code	30301
Phone	
Company	Grayson Realty LLC
Primary email	grayson@email.com
Contact emails	

3. Click the plus sign () next to **Contact emails**.

Kaui opens the Add New Email screen:

Add New Email

Email

SAVE

4. Type in a single email address.
5. Select the **Save** button. Kaui returns to the Account page.
6. To see the email address you added, expand the Personal Information section:

Personal Information

Show/Hide Content

Name	Grayson Busch
Address1	101 Starburst Way
Address2	
City	Atlanta
State	GA
Country	US
Postal Code	30301
Phone	
Company	Grayson Realty LLC
Primary email	grayson@email.com
Contact emails	Pierre@mail.com ✖ mary@mail.com ✖ +

7. To add another email address, repeat steps 2 - 5.

Delete Additional Contact Emails

Warning: Kauai does not ask you to confirm your deletion; use this feature with caution.

To remove additional contact emails:

1. Open the account on the Account page.
2. In the Personal Information section, click the gray down arrow (▾) to expand the section.
3. Next to the email you want to delete, click the red X (✖). Kauai immediately deletes the email address.

Close an Account

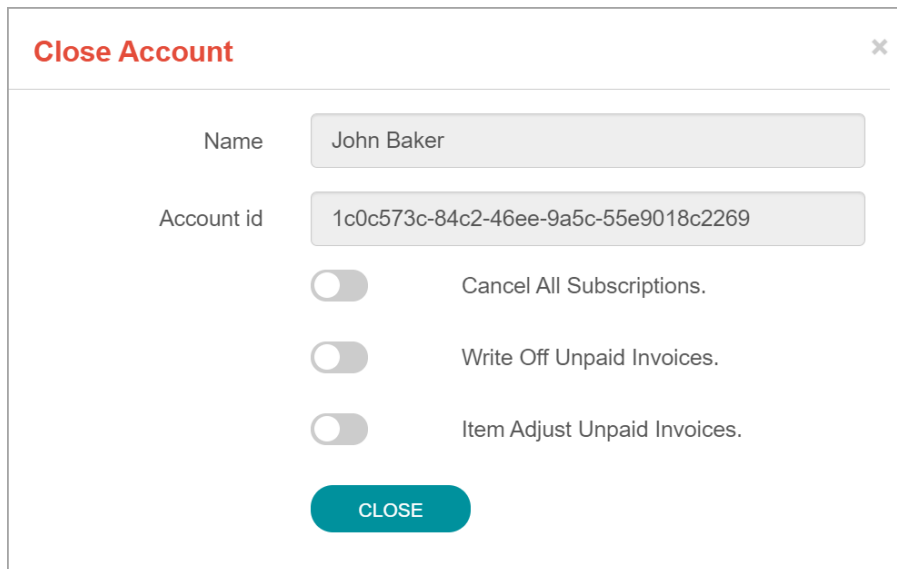

Use the steps in this section to indicate you will no longer be doing business with a customer. If the customer has unpaid invoices, using the steps below, you can choose to either write off or item-adjust them.

Note: Closing an account does not delete it. It only indicates the account is no longer a customer of yours. Once you close the account, its data becomes read-only, and you cannot make changes to it.

1. Open the account on the Account page.
2. Next to Account Information, click **Close**.

Kaui displays the Close Account pop-up:

A modal dialog titled "Close Account" with a close button (X) in the top right corner. It contains two input fields: "Name" with the value "John Baker" and "Account id" with the value "1c0c573c-84c2-46ee-9a5c-55e9018c2269". Below these are three toggle switches, each with a label: "Cancel All Subscriptions.", "Write Off Unpaid Invoices.", and "Item Adjust Unpaid Invoices.". At the bottom is a teal "CLOSE" button.

Close Account ×

Name

Account id

☐ Cancel All Subscriptions.

☐ Write Off Unpaid Invoices.

☐ Item Adjust Unpaid Invoices.

CLOSE

3. Check the **Name** and **Account ID** fields to ensure you are closing the correct account.

4. Toggle any of the following options:

- **Cancel All Subscriptions**—Stops any subscriptions that are current for this account.
- **Write Off Unpaid Invoices**—Brings the balance for all unpaid invoices to zero. When you choose to write off the invoice, it is removed from Account Receivables.
- **Item Adjust Unpaid Invoices**—Adds an invoice line item with a negative amount to bring each unpaid invoice's balance to zero.

Note: The last two options are mutually exclusive (i.e., you can only select one of them).

5. Click the **Close** button.

Kaui displays a message that lets you know the account was closed. In addition, the Account sub-menu displays "Closed":

Add a Tag to an Account

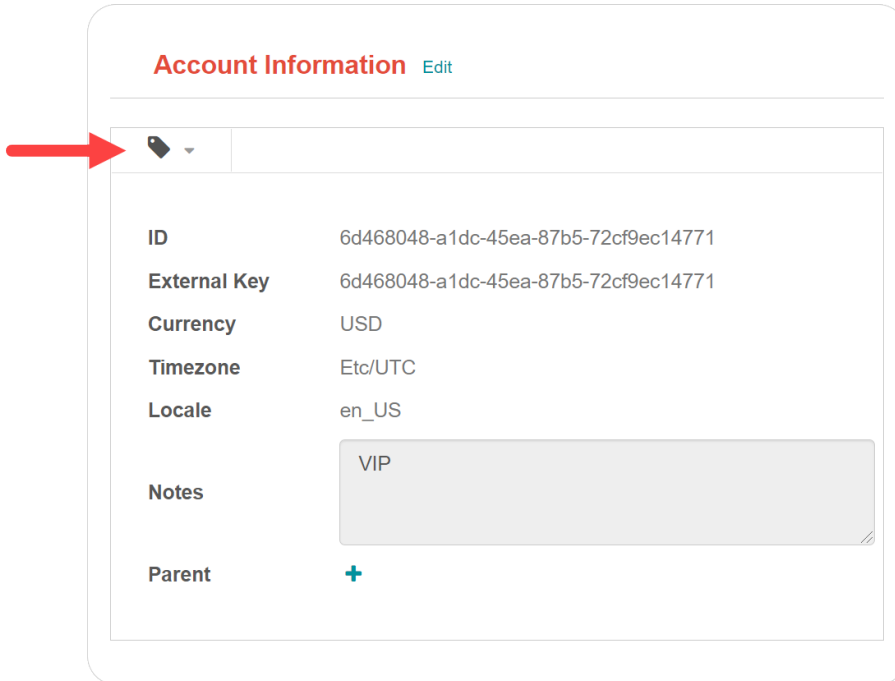

You can attach a tag to an account as a way of communicating information or to starting/stopping an action. Some examples from the default tags that already exist in the system include:

- The **AUTO_INVOICING_OFF** tag stops invoicing the customer account until the tag is removed.
- The **TEST** tag indicates the account is used internally for testing purposes.

For more information on Tags, including a list of default tags, see the [Tag section](#) in the *REST API Reference Manual*.

To add a tag to a customer account:

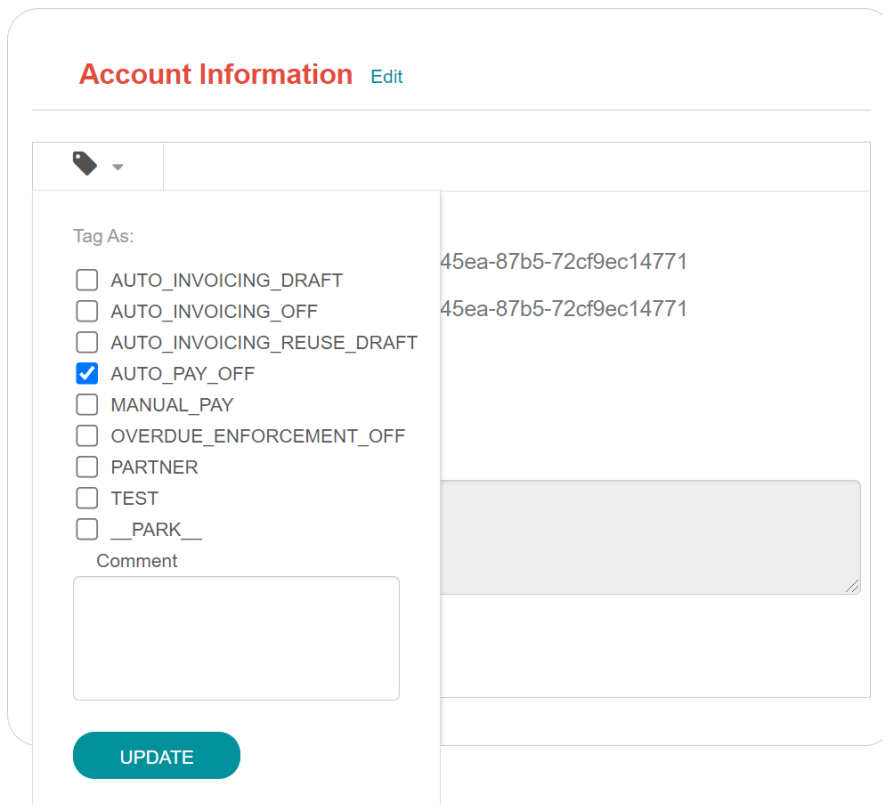

1. Open the account on the Account page.
2. In the Account Information section, click the tag icon in the upper left corner:

The screenshot shows the 'Account Information' page. At the top, there's a header with 'Account Information' in red and an 'Edit' link. Below this is a form area. A red arrow points to a tag icon (a small black tag with a white 'x') in the top left corner of the form area. The form contains the following fields:

ID	6d468048-a1dc-45ea-87b5-72cf9ec14771
External Key	6d468048-a1dc-45ea-87b5-72cf9ec14771
Currency	USD
Timezone	Etc/UTC
Locale	en_US
Notes	<div>VIP</div>
Parent	<div>+</div>

3. Select the checkboxes of the tags you want to assign to the account.

The screenshot shows the 'Account Information' page with the tag selection modal open. The modal has a 'Tag As:' section with a list of checkboxes. The 'AUTO_PAY_OFF' checkbox is checked. Below the checkboxes is a 'Comment' field and an 'UPDATE' button. The background form is partially visible, showing the 'Notes' field with 'VIP' and the 'Parent' field with a '+' icon.

Tag As:

- ☐ AUTO_INVOICING_DRAFT
- ☐ AUTO_INVOICING_OFF
- ☐ AUTO_INVOICING_REUSE_DRAFT
- ☒ AUTO_PAY_OFF
- ☐ MANUAL_PAY
- ☐ OVERDUE_ENFORCEMENT_OFF
- ☐ PARTNER
- ☐ TEST
- ☐ __PARK__

Comment

UPDATE

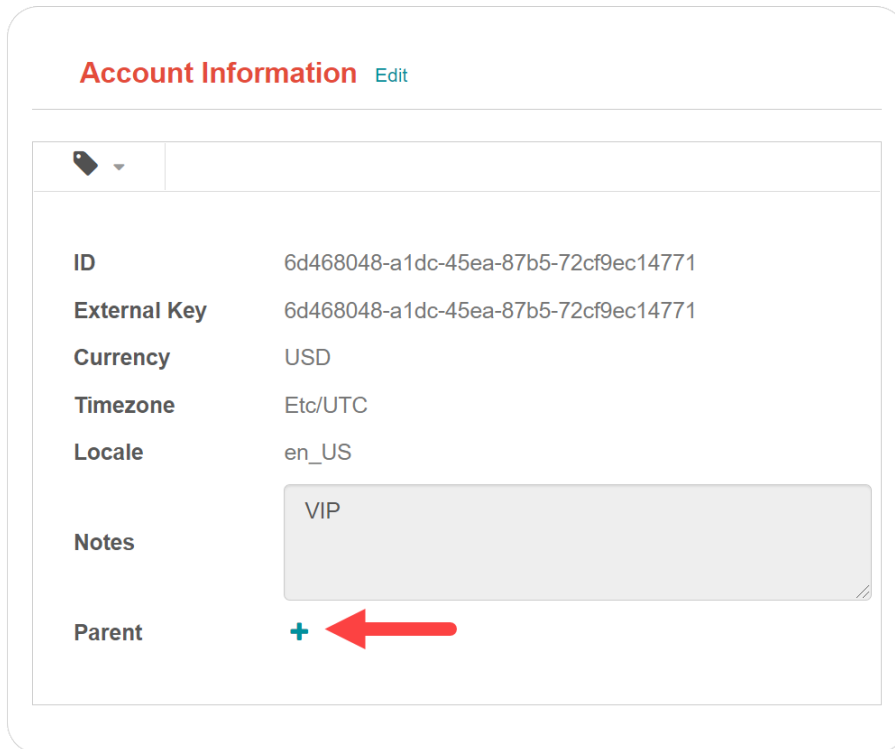

4. Click the **Update** button to save your changes.

Link to Parent Account

When you link an account to a *parent* account, the account becomes a *child* account. Defining a

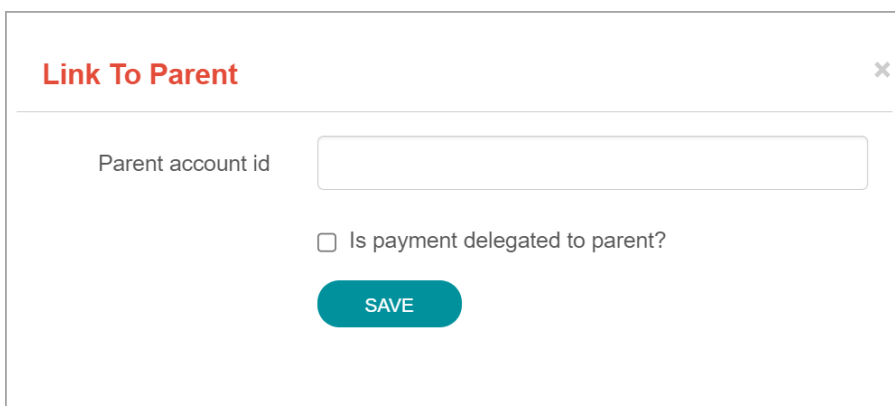

parent-child association between accounts lets you define which entity is responsible for paying the invoice. For more information on this feature, see the [Hierarchical Accounts Tutorial](#).

1. As a preparation step, open the parent account and copy the account ID in the Account Information section.
2. Open the account that will become the child account.
3. In the Account Information section of the child account, click the plus sign icon (+) next to the **Parent** field:

Account Information Edit	
ID	6d468048-a1dc-45ea-87b5-72cf9ec14771
External Key	6d468048-a1dc-45ea-87b5-72cf9ec14771
Currency	USD
Timezone	Etc/UTC
Locale	en_US
Notes	VIP
Parent	+

Kaui opens a popup:

Link To Parent ×

Parent account id

☐ Is payment delegated to parent?

SAVE

4. Click in the **Parent account id** field and paste in the account ID that you copied in step 1.
5. To set the parent as responsible for all payments associated with this account, check the **Is payment delegated to a parent?** box. If you do not check this box, the child account is responsible for its own payments.
6. Click the **Save** button. Kaui displays the parent account ID as a link in the Account Information section.

Account Information [Edit](#)

ID	6d468048-a1dc-45ea-87b5-72cf9ec14771
External Key	6d468048-a1dc-45ea-87b5-72cf9ec14771
Currency	USD
Timezone	Etc/UTC
Locale	en_US
Notes	<div>VIP</div>
Parent	cb736a4f-9b56-4074-ae07-1d37b37cb69f

You can open the parent account by clicking the account ID link.

Payment Methods

In production systems, payment method information is typically added via gateway-specific data flows. However, you can use this Payment Method section for testing purposes.

Warning! For PCI compliance, *do not* enter any genuine payment information in these fields.

View Payment Method Details

To view a payment method after it's created:

1. Open the account on the Account page.
2. In the Payment Methods area, click the gray down arrow () next to the payment method.

Kaui expands the details for the payment method:

Payment Methods

__EXTERNAL_PAYMENT__

[AUTHORIZE](#) [PURCHASE](#) [CREDIT](#)

Name: [__EXTERNAL_PAYMENT__](#)

ID: 0f700362-2669-4e33-98e3-5de85e840c04

Set a Payment Method as the Default

Kill Bill uses the default payment method to automatically pay invoices (whether that invoice is generated by the system or manually by a user).

To set a payment method as the default:

1. Open the account on the Account page.
2. In the Payment Methods section, click the star icon (★) next to the relevant payment method:

The filled star (★) indicates it's now the default payment method.

Add Payment Method

A customer account can have several payment methods to allow for making payments in different ways, such as credit cards, debit cards, PayPal, and so forth. The payment method includes the details needed for Kill Bill to process a payment against an invoice.

Saving this information in Kauai makes it easier for you to accept payments from the customer, because the customer does not have to repeatedly provide their payment method details.

Note: You cannot edit a payment method once it is created.

To add a payment method for a customer:

1. Open the account on the Account page.
2. Next to **Payment Methods**, click the plus sign:

Kauai displays the Add New Payment Method screen:

Add New Payment Method

External key

Plugin name

__EXTERNAL_PAYMENT__

Card type

Card holder name

Expiration month

Expiration year

Credit card number

Address 1

Address 2

NAME	VALUE

☐ Default payment method?

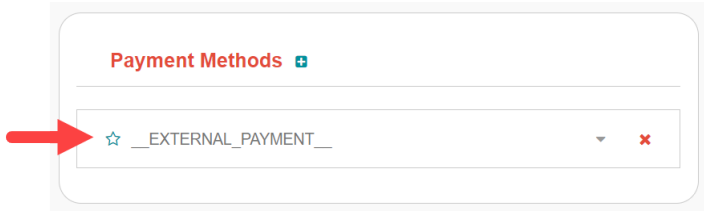

SAVE

3. Fill in the fields. For field information, see the table in the next section.

4. Click the **Save** button.

Payment Method Field Information

Field	Description
External key	An optional alternate ID for the payment method. Once this is saved for the customer, you cannot change it.
Plugin name	Type in the name of the plugin that is associated with this type of payment method.
Card type	The name of the credit or debit card.
Card holder name	The name that appears on the card.
Expiration month Expiration year	The month and year the card expires. Enter month as <i>mm</i> and year as <i>yy</i> . (Examples: 07 for the month of July and 23 for the year 2023.)
Credit card number	The credit card number, typed without dashes.

Field	Description
Address 1, Address 2, City, ZIP code, State, Country	The billing address associated with this card.
Add property (Name/Value)	<p>Use the Name/Value fields to assign custom fields and values to the payment method.</p> <p>Note: Custom fields are an advanced feature. For more information, see [part_4].</p>
Default payment method?	<p>Check the box to set this payment method as the default. Kill Bill uses the default payment method to automatically pay invoices (whether the invoice is generated by the system or manually by a user).</p> <p>Note: If you forget to select this box, you can set the payment method as the default by clicking the star icon next to the payment method on the Account page:</p> 

Applying Transactions to a Payment Method

This section explains how to apply a transaction to a payment method. These transactions include:

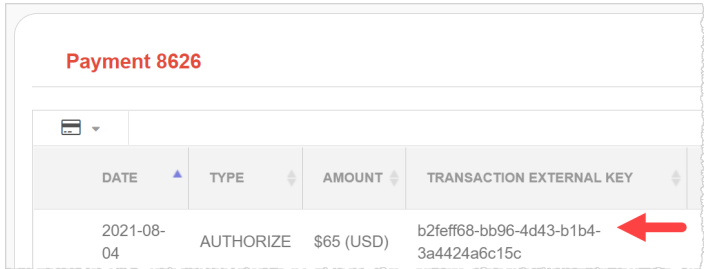

- Authorize
- Capture
- Chargeback
- Credit
- Purchase (i.e., charge)
- Refund
- Void

Note: These transactions are directly applied on the payment instrument (as opposed to being applied to the unpaid invoice). Additionally, "credit" here refers to depositing funds directly to the customer card and is unrelated to account credits.

1. Open the account on the Account page.
2. In the Payment Methods area, click the gray down arrow (▼) next to the payment method.
3. Select the type of transaction you want to perform:

Process Transaction Field Information

Field	Description
Transaction type	From the dropdown list, select the type of transaction you want to perform.
Amount	The amount of the transaction.
Currency	The currency used for the transaction. This field defaults from the customer account.
Payment key	<p>The unique payment key (ID) to which you want to apply the transaction. This field is required for every transaction type <i>except</i> Auth, Credit, and Purchase.</p> <p>Note: You can copy the payment key for a specific transaction from the External Key column of the Payments page. Or you can copy it from the URL displayed in your browser's address:</p> <p><i>Example:</i></p> <p>URL: https://demo.killbill.io/accounts/cb736a4f-9b56-4074-ae07-1d37b37cb69f/payments/0d1e11e5-2df6-4b6b-992f-e9ff2de38cef</p> <p>Payment key: 0d1e11e5-2df6-4b6b-992f-e9ff2de38cef</p>
Transaction key	<p>Kill Bill automatically generates an external transaction key for Auth, Purchase, and Credit transactions. To process a transaction that requires the transaction key, open the payment detail from the Payments screen and copy the key from the Transaction External Key column.</p> 
Reason and Comment	The text you enter for Reason and Comment displays on the Timeline page.
Add control plugin	For information on control plugins, see [part_4] .
Add property (Name/Value)	Use this area to assign custom fields and values to the transaction. For information on custom fields, see [part_4] .

Delete Payment Method

Warning: Kauai does not ask you to confirm your deletion; use this feature with caution.

To delete a payment method:

1. Open the account on the Account page.
2. In the Payment Methods area, click the red X () next to the payment method. Kauai *immediately* removes the payment method.

Subscriptions

Currently in process.

This area of Kauai lists the subscriptions associated with the account.

Invoices

Currently in process.

This area of Kauai lists the invoices applied to the account. An invoice can get generated automatically if the customer has a recurring subscription. You can also generate an invoice for the account by adding a charge.

Payments

Currently in process.

This area of Kauai lists the payments applied to the account.

If a customer account has a default payment method, Kauai automatically makes a payment when an invoice is generated (whether the invoice was generated by the system or manually).

Another way to generate a payment is to add a charge to the account.

To view an account's payments:

1. Click on **Payments** on the submenu.
2. Click on the payment number to view its detail.

Charges, Refunds, and Invoices

Currently in process.

Create Charge

Creating a charge in Kauai creates a new invoice. To create a charge:

1. On the Account page, click **Create Charge** at the top of the Billing Info section.

Billing Info

[+ PAY ALL INVOICES](#)
[+ ADD CREDIT](#)
[+ CREATE CHARGE](#)

Account balance	\$10
Account credit	\$0
Overdue status	Good
Bill cycle day	N/A
Next Invoice Date	N/A

Trigger invoice generation ☒ Dry-run

Kaui opens the Add New Charge pop-up:

Add New Charge

☒ Auto-commit?

Amount

Currency

Description

Comment

SAVE

- To set the invoice as a draft instead of immediately committing it, uncheck the **Auto-commit** box and enter the amount of the charge.

Note: Currency defaults from the customer account and should not need to be changed

- The **Description** field and **Comments** field are optional. What you type here displays on the customer's invoice.
- Click **Save** and Kaui generates an invoice.
- If you unchecked the **Auto-commit** box, you can click **Commit** if necessary.

If you do not commit the invoice, it will stay in Draft mode. You can commit it by opening it from the Invoices page and clicking **Commit**.

Create Refund

Create Invoice

Authorize, Capture, Purchase, Chargeback, Credit, Void? [[Some are listed under the specific payment method on the Accounts > Payment Methods]]

[[How to view/interpret the timeline. What it shows.]]

Timeline

The billing timeline shows all the events that occurred for a specific user account:

The top two **Filter by...** dropdown fields let you filter the events by subscription bundle or by event type.

In the Details column, you can click on payment and invoice links to open the associated documents.

The screenshot shows the Kill Bill web interface. At the top, there's a navigation bar with the Kill Bill logo, a search bar, a 'CREATE NEW ACCOUNT' button, and a user profile dropdown. Below this is a tabbed interface with tabs for 'Frieda Lancaster', 'ACCOUNT', 'SUBSCRIPTIONS', 'INVOICES', 'PAYMENTS', 'TIMELINE' (which is active), 'TAGS', and 'CUSTOM FIELDS'. The 'Account Timeline' section is displayed, featuring two filter dropdowns: 'Filter by bundle' and 'Filter by event type' (set to 'ALL'). Below the filters is a table with the following data:

EFFECTIVE DATE	BUNDLE	EVENT TYPE	DETAILS	REASON CODE / COMMENTS
2021-05-29		PURCHASE	Amount: \$10 (USD) SUCCESS Payment # 7632 Invoice # 16407	INSERT by dinahramirez1@gmail.com: 699 - OTHER UPDATE by dinahramirez1@gmail.com: 699 - OTHER
2021-05-29	4dbb63f7-...-e31396c8c0e1	PURCHASE	Amount: \$29.99 (USD) SUCCESS Payment # 7633 Invoice # 17586	INSERT by dinahramirez1@gmail.com: 600 - Alt payment method UPDATE by dinahramirez1@gmail.com: 600 - Alt payment method
